Supersedes AFRCMD 1127, 8 August 1997

Pages: 4
Distribution: F

This mission directive prescribes the mission and establishes the responsibilities for Air Force Reserve Command (AFRC) aeromedical staging squadrons/flights (ASTS/ASTF).

SUMMARY OF REVISIONS

This revision revises Applicability ([Attachment 1](#)), and adds, Aeromedical Staging Squadron/Flight organizational charts ([Attachment 2](#)). A bar (|) indicates revision from the previous edition.

1. Mission:

1.1. Peacetime. The mission of ASTS/ASTF is to train to provide a level of wartime readiness sufficient to ensure appropriate supportive and emergency care for patients transiting the aeromedical evacuation system. Additionally, the ASTS/ASTF, through its aerospace medicine flight, provides medical support to authorized personnel in support of the parent wing's mission until directed otherwise by competent authority.

1.2. Wartime/Emergencies. Governed by gaining command directives.

2. Command. The ASTS/ASTF reports directly to the medical group commander or group/wing commander when a medical group is not authorized. The peacetime structure of AFRC ASTS/ASTF design maintains effective operations with the least expenditure of resources and minimizes organizational turbulence upon wartime mobilization. These squadrons/flights functionally align for structural compatibility with their active duty counterparts.

3. Assigned Forces. While in peacetime status and during 2 weeks of annual training, ASTS/ASTF are under the direct control and supervision of the group or wing to which assigned. Under Presidential call-up pursuant to Title 10 U.S.C. 12304, administrative jurisdiction remains unchanged. Operational control transfers to the commander of the gaining command. Under mobilization authority, command jurisdiction transfers to the commander of the unit to which assigned by the gaining command.

4. Relationship to Other Units. Established command channels apply. Communicate directly with the active duty advisory unit/active duty advisors on matters relating to training, inspection, and safety. Send copy of such correspondence to the respective regional support group (RSG/SG) of the numbered air force (NAF) to which assigned.

JAMES E. SHERRARD III, Lt General, USAF
Commander
